Jackie's Foot Crushed As He Gets Off Train

Morris R. O'Connor, a jackie, while getting off a freight train at Seventy-fifth and Halsted last night, fell and his foot was crushed. He probably will lose it. His home is at 7044 South Loomis St.

Twenty-One Since June 5? Then Register Aug. 24

Washington, D. C., Aug. 18.—(Special.)—Provost Marshal General Crowder said today that all printed forms needed for the registration on Aug. 24 of young men who have reached their twenty-first birthday since June 5, 1918, and on or before Aug. 24, 1918, have been distributed to the local draft boards.

Registration cards will be similar to those used heretofore, although the registration numbers will be filled in by the adjutant general in each state, instead of by the local board.

Every registrant will be required to give his name in full, age, home address, date of birth, place of birth, whether he is a native or naturalized citizen, an alien, one who has declared his intention of becoming a citizen, a "non-citizen," or citizen Indian; if not a citizen, the nation to which he owes allegiance; his father's birthplace, the name of the registrant's employer, place of employment, name and address of nearest relative, and the registrant's race—i. e., whether he is white, Negro, Indian, or oriental.

William J. Knight, 7636 Emerald Ave., was in on a 12-day furlough last week from the Great Lakes Naval Station. He expects to sail for France about the 1st of September.

Labor Asks Mayor to Veto Traction Measure

Veto by the mayor of the traction ordinance passed last week by the city council is asked in resolutions unanimously adopted yesterday by the Chicago Federation of Labor.

The resolution, submitted by the Brotherhood of Carpenters and Joiners, in part says:

"Whereas, The terms of the traction ordinance pending in the city council place upon the railway properties united by the ordinance a valuation that is padded or 'watered' to the extent of not less than $60,000,000 . . . and

"Whereas, The share of the annual profits now received by the city from the street car system under 1907 ordinance will be absorbed by the belated measure of justice which grants to our brother workmen of the street railway service a proper and much needed increase of pay . . . and

"Whereas, Each cent added to the present street car fare will bring into the coffers of the traction trust an additional annual profit of not less than $7,000,000—so that the trust will not only get the $3,000,000 excess interest on watered stock, but will also get an additional $4,000,000 per year as a reward for its cleverness and as a fund with which to still further bedevil our civic life in ways that are already too notorious, as illustrated by the present grand jury investigation; and

"Whereas, The ordinance takes the question of street car fares out of the city's power by means of a so-called 'trustee' arrangement which, under the false name of 'municipal operation,' places the control of street car affairs in the hands of men nominated by the street car interests and affiliated with them; and

"Whereas, The bad faith of this ordinance is further shown by the unseemly haste with which it is proposed that this entirely premature piece of legislation shall be rushed to a popular vote at a time when many thousands of our fellow workmen of this city are absent in distant lands fighting to make the world safe for democracy, and by reason of that absence are estopped from registering their protest against this assault upon democracy in their own home city;

"Be It Therefore Resolved, That the Chicago Federation of Labor hereby records its emphatic protest against the passage of the said ordinance, and asks Mayor Thompson to veto the ordinance at the coming session of the Chicago city council."

SAVE STOVES

Repair your stoves and furnaces, instead of buying new ones.

This advice to residents of the state was given yesterday by Joseph Harrington, administrative engineer for Illinois of the United States fuel administration. His admonition follows:

"The fuel administration urges you to save fuel.

"The war industries board insists that you save iron.

"The Liberty loan, war savings stamps, and income tax forces you to save money.

"The department of labor insists that all labor be employed to win the war.

"A saving of fuel, or iron, or money and labor can be accomplished by repairing your stove or furnace rather than buying a new one. Make your repairs now."

Red Cross Salvage

The salvage bureau of the Chicago chapter of the American Red Cross issued a warning concerning junk sold to the peddler. Clothing is not junk; wearing apparel is not salvage. Good shoes, worth from $1 to $2 have been selling for 3½ cents per pound.

Papers, bottles, metals, old rubber, auto tires, garden hose, books and magazines are listed as junk. Clothing is not included, but should be saved for the annual rummage sale of the Children's Memorial Hospital or other worthy charities.

Books and Toys For French Orphans

Would you like to help the little French children and make them happy once more? Just bundle up all the picture books you have around the house, get your neighbors to part with some of theirs, or send money to buy books to the public library.

A second division of the kindergarten unit from the United States, a branch of the Red Cross going over early in September. A committee will forward books to Miss Fannie-belle Curtis. She and kindergarten teachers willl take them directly to France. Of course the children will not understand English, but they will enjoy the pictures. Send books to Miss Whitcomb, Thomas Hughes room, Chicago Public Library.

WHAT YOU GET FOR A QUARTER

About the Great Government Show—YOU are going—Get your tickets NOW from your letter-carrier at half price.

Stop, Look and Listen! Those who attend the U. S. Government War Exposition at Grant Park, September 2nd-15th, will see all this for 25 cents:

1. Twenty carloads of war trophies—naval guns, field guns, shells, rifles, aeroplanes, submarines, all the paraphernalia of war. Some captured from the Germans, some used by the allies.

2. Front Line Trenches—an exact reproduction of part of the fighting lines, laid out by the same officer, and dug by the same men, who constructed them on the battle front.

3. No Man's Land—just as it is where our boys are fighting, with scars, pits, wrecks of guns, and shell craters in which sometimes machine gun crews hide.

4. Training Camps—showing exactly how our boys are fitted for their fight with the Hun, what they do and how they do it.

5. Official Motion Pictures taken by the American and Allied Governments, showing their soldiers and sailors in training, in battle, and in all their activities.

6. Naval maneuvers by the U. S. Lake Fleet off Grant Park, mimic sea battles, demonstration of shell fire, mines, torpedoes, defense against submarines, and night signaling.

7. Aerial maneuvers by American and British Air Squadrons, bombing, signaling, fighting in air, scout work, and photography. Gen. Lee, famous fighter, will lead the British squadron.

8. Exhibits and demonstrations by: U. S. Shipping Board; U. S. Food Administration; Emergency Fleet Corporation; American Red Cross; Salvation Army; Knights of Columbus; Y. M. C. A. and other organizations.

9. Speakers of National reputation; music by Army and Navy bands, including the Great Lakes Jackie Band and bands from abroad, also special features, including choral singing societies of national groups.

Now see your letter-carrier today when he brings your mail the 25-cent price ends Saturday night, Aug. 31; after that date it will be 50 cents. You can also get them at the post office, 738 W. 79th St.

All money above expenses goes into the U. S. Treasury.

Service Repaid by Student Nurse

A young woman came into a recruiting station for nurses the other day in a nearby town and asked to be enrolled. It came out as she answered the questions asked her that she was giving up a position as a bookkeeper to undertake the great work for humanity to which those pledge themselves who volunteer for the United States Nurse Reserve. She was doing this that she might repay in a small measure what had been done fro her brother.

"Why, when Dick was so sick with pneumonia at camp last winter," she said, "it was only the care of the Red Cross nurse that pulled him through. Mother couldn't have done better—Dick said so—and when he was getting well so many nice little things were done for him. Why, it's little enough for me to want to help some other girl's brother, and do this much to fight our battle for mercy and democracy."

It is for such reasons by the thousands that young women all over the country are entering the nurse reserve aid are enlisting at the recruiting stations conducted by the local unit of the Woman's Committee of the Council of National Defense, under the auspices of which there is now going on a drive for 25,000 nurses for Army, Red rCoss and civilian nursing work.

A public auto ride and ice cream social will be given by the Ladies' Aid Society of Calvary M. E. Church, Friday evening, Aug. 23, from the church grounds, 78th and Morgan streets. Come and enjoy a cool ride through the parks. Auto ride 35c and ice cream 10c.

How many people have thought of last winter's coal shortage these hot days. Very few, we presume. Nevertheless now is the time to provide for this coming winter's supply.

We have solved your problem as to what coal to choose to get the best results. We have tested coals from various mines and found them all to be pretty good. Among them was a coal mined in Saline County, Southern Illinois, which is known as "Harrisburg For Heat," and has proved to be paramount of them all. It burns with a long flame, no clinkers, low in ash and lasts all night. It is just the coal you want for household or apartment building use.

We are satisfied it will save you time, worry and money by laying in a supply of same. A trial order will convince you of the superior quality of the coal.

Booklet will be furnished you on request describing how to do your firing properly and thereby saving fuel. If you have your coal in send us a self-addressed, stamped envelope and we will mail you a pamphlet on proper firing and banking of fires. You cannot be without it.

We deliver anywhere. Call us up. Phone Stewart 70.

Mae Murray
IN
'A Bride's Awakening'

When a Bride Is Not a Wife

No man can be both the husband of a simple child and lover of an experienced woman for very long. Be off with the old love before you marry. Don't be found out as the eleventh commandment. If you were in love with a young man, if all of your thoughts revolved around him, if two days before you were to be married to him you discovered that he planned to continue his relations, with another woman, exactly the same as he had prior to the marriage, what would you do? Would you allow him to marry you? Mae Murray faces this condition in "The Bride's Awakening." She had to make a decision.

'The Price of Applause'

JACK LIVINGSTON IN TRIANGLE PLAY "THE PRICE OF APPLAUSE"

A picture without a noted star, but a picture so good, so different from the ordinary feature, that we have booked it for all our theatres. It is a war story, but you have never seen one like it before. It pictures to you what applause means to men of certain temperament. It shows you Karl le Baron, poet and member of a little coterie of so-called Bohemians in the Washington Square district, New York, who was very much pro-German. That is, he was until his attitude ceased to attract attention to himself—and then he became pro-Ally, until he got as far as the front line trenches, when he became a deserter from the ranks of democracy and an outcast. In the meantime his poems had made him famous, but when he returned to claim fame and fortune, what was the result?

Dead, he was a hero. Alive, he would be branded a coward and deserter. Alone he wandered the streets, working out his own salvation. And then in his darkest hour his great opportunity came. He had lived a coward all his life—but success and applause had changed him, and he, when the great moment came, met it like a man, with a smile on his lips, content in his heart—alone in his great adventure.

SESSUE HAYAKAWA
And All Star Cast in the Most Wonderful Picture of His Career
'The City of Dim Faces'

The pathetic story of a Chinese-American who loves a white girl and who responds to the call of his white mother and saves the life of the girl he can never marry, losing his own as a result. Sessue Hayakawa is the star, and needless to say, in the role of Jang Lung he is perfectly cast. Doris Dawn is the white girl who loves the young Chinaman. There is a most dramatic climax and a thrilling fight when Jang Lung tries to save the girl from the hands of the marriage market men. The scenes are laid in the heart of San Francisco's Chinatown and are consequently most picturesque. The old saying, "For ways that are dark and tricks that are vain, the heathen Chinee is peculiar," is powerfully illustrated in this tale.

MARGARET FELCH

Makes a big hit with "The Blue Bird." No doubt the lovers of good music will be delighted to know that we have listened to the many requests of our patrons and have made special arrangements for a return engagement of Miss Felch on Aug. 21st, 22nd and 23rd. As a usual thing hot weather and enthusiasm do not go hand in hand, and if you remember the weather man was cutting up all kinds of capers during Miss Felch's previous engagement.

The skeptics looked bored to death as she made her appearance. Their thumbs were down, but as the golden notes of "The Blue Bird" filled the auditorium the heat was forgotten, the applause direct and from the heart.

It is to be hoped that Miss Felch will favor us again with this wonderful melody, and we trust that she may also use a good old Irish folk song.

All lovers of good music should grasp this opportunity of hearing a voice worth going miles to hear.

DON'T FORGET JEANE ST. JEANE

Monday and Tuesday, Aug. 19th and 20th. An extra attraction to our regular program.

THIS IS PERSHING WEEK

You will find the ladies of Auburn Park hustling to sell stamps for Uncle Sam. What are you going to do—meet them face to face with a five dollar bill in your hand or pull your hat down over your eyes and go to your home via the alley? Let us dig—dig—and dig some more. On the last stamp drive Auburn Park made quite a record. Come on, you workers; let's go out and smash it. Each war stamp you buy means that you are helping the boys over there.

On Sept. 5th and 6th we present D. W. Griffith's latest master picture, "The Great Love."

WILSON'S
Special Buttermilk Chocolate Creams
will fill the bill. Call and inspect our sweets

HURRAY! IT'S HERE AT LAST!

Marguerite Clark
IN
"Uncle Tom's Cabin"

We wouldn't so insult the intelligence of either the old or the young generation as to try to say anything about a story which has been read and translated and played more times than any other book, which has ever been written and that's going some. Suffice it to say that we don't know of a daintier "Little Eva" than Marguerite Clark and we can't think of anyone else on the screen who could double up and play Topsy at one and the same time. It's all there—the famous old characters who have made you laugh and weep many and many a time. Eva, and Topsy, and Uncle Tom, and Eliza, and Marks, and Legree—and oh, isn't that enough!

HARRY CAREY in "A Woman's Fool"
By Owen Wister, Author of "The Virginian"

Say, man, if you must be a fool, better be one for one darn woman. This is the story of a big-hearted westerner who was a mark for women. His marriage to Kate, a Denver biscuit-shooter, who was already married and the mother of a bouncing boy, so complicated his true affection for Jasmine Buchan, the beautiful station agent, that nothing except a miracle restored his faith in women.

HAROLD LLOYD COMEDY

German Prisoner Struck by the Muse

John S. Everett, 909 W. 63rd St., writes from France. Speaking of German prisoners (he says) there are thousands of them around our camp, and enclosed you will find some verses written by one of them, and I think it pretty good:

As long as the flowers their perfume give,
That long would I let the Kaiser live—
Live and love for a thousand years,
With nothing to drink but the Belgians' tears.
Nothing to quench his dreadful thirst
But the salted brine of the Scotchman's curse.
I would let him live on a dinner each day,
Served with silver, and on a golden tray—
Served with dainties both toothsome and sweet,
Served with everything but things to eat.
I would make him a bed of silken sheen,
With costly linen in between,
With covers of down and fillets of lace,
And golden pillows piled in place.
But to its comfort he would yield,
It would stink with the rot of the battlefield,
And the blood and the brains and bones of men
Would cover him, smother him, and then
His pillow would cling with the rotten clay—
Clay from the grave from soldier boys,
And while the stars their vigil keep,
And on the shores great waves would leap,
He would never, never, no more sleep.

I would build him a castle by the sea—
A finer castle than ever could be—
I would bring him a ship from over the sea—
A finer vessel than ever could be—
Laden with water, cool and sweet,
Laden with many things good to eat,
Yet when he reached his eager hands
Then it would turn to burning sands,
And a swift, hot, hellish, molten shell
Would turn his Heaven into Hell.

In No Man's Land where the Irish fell
I would start the Kaiser another Hell.
I'd jab him and stab him, soak him with gas;
In every wound I'd pour ground glass,
I'd march him out where our brave boys died,
Out past the lads he had crucified,
And in the gloom of this living tomb,
One thing I would do before I was thru:
I would make him sing in stirring manner
The wonderful strains of "The Star-Spangled Banner."

—Anon.

If the Kaiser's people love him that way, what can or what must they think we Americans think of him.

YOU AND PERSHING

"What new victory has Pershing won today?"

"Out boys have the Hun on the run. Wonder how many they captured today."

"Nothing can stop our boys when they once get into the fighting."

This is the kind of talk we hear every day now as the news of American victories overseas fills all the newspapers. We can hardly wait for our paper to arrive to find out what General John J. Pershing and his boys have done.

If finding out what Pershing is doing in France is the biggest thing in the world to us, don't you suppose that General Pershing is just as anxious to learn what you are doing over here? Don't you think he would like to get a list of millions of Americans who are standing behind him with their money and their labor, instead of just talking and cheering a little as they go about their business or their pleasures as usual?

Pershing Patriot Week, Aug. 15th to 22nd, under the auspices of the War Savings Committee for Illinois is designed to let General Pershing know what we, over here, are doing.

A list of not fewer than 2,000,000 Pershing Patriots from Illinois must be compiled during this week. Every signer must be a purchaser of War Savings Stamps. The money he thus invests is not a gift to the Government, but merely a loan at good interest. It is proof, however, that we who remain at home are determined to see that the army commanded by General Pershing does not lack for food, munitions or ships to carry them across the seas, and that we will be behind them until the American flag flies over the Kaiser's castle at Potsdam, and an American peace is signed in Berlin.

There are many ways, all of them good, of helping to win this war.

One way is to subscribe liberally to the Liberty Loans.

Another way is to give to the Red Cross, Y. M. C. A., Knights of Columbus, Salvation Army or other organizations which are working for the good of our army in France and in America.

A third way is to follow the mandates of the Food Administration, in order that our Allies and their troops may be fed.

But the best way of all is to invest regularly, in War Savings Stamps, for this not only furnishes our Government with money but it we invest in sufficient amounts to count it has put us to practice self-denial economy, that we have met all the other demands upon us.

These additional economies are after all, the important thing, for they cut down the civilian demand for materials, transportation and labor, all of which the Government must have in enormous quantities if it is to supply the thing needed in war.

Money alone is of no value to a nation in war time. The Government might have billions of dollars piled up in its treasury. But if these dollars were not transmuted into ships and guns and food and clothing and shell, through the medium of labor which changes the raw products into finished goods and transportation which carries them to France, the money would do no good.

After all, wars are won by "blood and iron," about which the old Bismarck called so much.

Pershing's men are ready to shed their blood if need arises.

Our dollars must furnish the iron.

No patriotic citizen can afford to have the Pershing Patriot list go forward to the commander of the American army in France with his name missing.

RECEIVES 7,000,000 SOLDIER LETTERS

The Postoffice Department authorizes the following:

More than 7,000,000 letters were received since July 29th from soldiers in France.

Eighty mail clerks worked up 80 per cent of the mail of ports in France for cities and railroad routes in this country. The other 20 per cent arrived at the port in France too late to be worked up and shipped to save time and was dealt at the New York postoffice.

On Aug. 2nd there were received on one ship 292,000 letters and on the same day a transport brought in 300,000 at another port. On Aug. 5th there arrived on one ship 2,000,000 letters.

The entire mail was immediately dispatched the last of it leaving before the expiration of 24 hours of the arrival of the ships in port.

WAR INDUSTRIES BOARD SETS FIRE STANDARDS

The War Industries Board authorizes the following:

The War Industries Board and the Bureau of Standards have joined in recommending for the duration of the war certain detailed standards covering construction and operation of a number of classes of appliances used in fire protection and fire prevention including hose, hydrants, and similar extinguishing agents, fire doors and similar fire-retardants, and electrical fittings of all classes which need standardization from the point of view of fire hazard.

To facilitate uniformity in procedure on all matters relating to the subject, A. O. Boniface has been designated as the co-operating agent between the Fire-Prevention Section of the War Industries Board and the United States Bureau of Standards.

FOURTH LIBERTY LOAN

The campaign for the Fourth Liberty Loan will be watched with keen interest close October 19th. The result of the Loan will begin September 28th and in Europe, not only by our associates in the War against the Teutonic powers but by our enemies. It will be regarded by them as a measure of the American people's support of the war.

The Germans know full well the tremendous weight and significance of popular support or the war, of the people at home backing up the Army in the field. As the loan succeeds or fails, will sorrow, as it falls short, they will rejoice. Every dollar subscribed will help and encourage the American soldier and hurt and depress the enemies of America.

The loan will be a test of the loyalty and willingness of the people of the United States to make sarifices compared with the willingness of our soldiers to do their part. There must be and will be no failure by the people to measure up to the courage and devotion of our men in Europe. Many of them have given up their lives; shall we at home withhold our money? Shall we spare our dollars while they spare not their very lives?

WAR MEASURES

The United States Government is "shouting" all of its soldiers with vaccine against smallpox and typhoid fever.

physician, call the Department of Health.

Keep your baby away from crowds; don't take it to places of amusement. The baby doesn't care for moving pictures anyhow.

Have your child "shot" now by your family physician with three injections of diphtheria vaccine to protect it against diphtheria. Do this because:

1. It may save your child's life.
2. Children can "catch" diphtheria more than once.
3. One child out of four is susceptible to this disease.
4. Out of every ten cases reported seven are children under 10.
5. Nine out of ten killed by diphtheria are children.
6. Out of every 100 children, 98 can be protected in this way.
7. The vaccination does the child no harm.
8. It takes six months for this vaccination to develop its full protective power.

GERMAN BEATITUDES

It is not known whether the following creed was composed by a German or by a foreign student of Germanism. It has the ring of genuineness; it is not far-fetched or overdrawn. The military masters of Germany have acted upon this creed, and the German Army, their disciples, has lived up to it.

"Ye have heard how in olden times it was said, 'Blessed are the meek, for they shall inherit the earth'; but I say unto you, 'Blessed are the valiant, for they shall make the earth their throne.' And ye have heard men say, 'Blessed are the poor in spirit'; but I say unto you, 'Blessed are the great in soul and the free in spirit, for they shall enter into Valhalla.' And we have heard men say, 'Blessed are the peacemakers'; but I say unto you, 'Blessed are the war makers, for they shall be called, if not the children of Jehovah, the children of Odin, who is greater than Jehovah.'"

SEAMEN INSURANCE

Practically $6,000 officers and sailors on American owned and registered vessels trading in the waters where the German submarines operate have been insured by the Treasury Department. The aggregate of the policies total well over $100,000,000.

This insurance is made compulsory by law, and since the submarines began to infest American waters it applies to all vessels trading to or from our Atlantic and Gulf ports. Small fishing vessels are excluded.

"We're On the Ship of War"

Alma B. Wilson

We're on the ship of war, boys,
Tho' we're not on the sea.
We're on the ship of war, girls,
The wide world seems to be
In turmoil like the ocean.
Men's thoughts like billows roar;
From North and South, from East to West
On goes the ship of war.
I ponder in the stillness,
Sou heads in prayer bow:
Anguished lips are calling:
"Master, sleepest Thou?"
Methinks I hear a grand command,
Men, obey his will.
The voice of Christ calls, "Silence,"
"Peace be still"—"Peace be still."

How many people have thought of last winter's coal shortage these hot days. Very few, we presume. Nevertheless now is the time to provide for this coming winter's supply.

We have solved your problem as to what coal to choose to get the best results. We have tested coals from various mines and found them all to be pretty good. Among them was a coal mined in Caline County, Southern Illinois, which is known as "Harrisburg For Heat," and has proved to be paramount of them all. It burns with a long flame, no clinkers, low in ash and lasts all night. It is just the coal you want for household or apartment building use.

We are satisfied it will save you time, worry and money by laying in a supply of same. A trial order will convince you of the superior quality of the coal.

Booklet will be furnished you on request describing how to do your firing properly and thereby saving fuel. If you have your coal in send us a self-addressed stamped envelope and we will mail you a pamphlet on proper firing and banking of fires. You cannot be without it.

We deliver anywhere. Call us up. Phone Stewart 70.

NATIONAL THEATRE

"A Little Mother to Be"

The time has arrived when men and women cannot take the problem of the unwedded mother and her baby behind closed doors and discuss it in whispers. They must come out into the open world and face it, as it is facing them with a new and imperative demand, which this world-rocking war has created, for a just and human solution.

Whatever the cause of this problem—however embarrassing its inception—there is no sex in its solution. Shoulder to shoulder men and women must face it. Eye to eye they must look upon it. Heart to heart they must discuss it. As brothers and sisters they must listen to it. And, together, they must solve it.

No subject is in closer touch with the hearts of pure-minded men and women of today than this one, when reverently handled, as it is in Mr. Ed W. Rowland's life-like production of Lem B. Parker's intensely human play—"A Little Mother to Be"—which is coming to the National a week starting Sunday matinee, Aug. 18th.

ENGLEWOOD THEATRE

"All New Gaiety Girls"

Success in the burlesque field must not be won on merit alone as the day of catching the public with flaring posters of misleading statements is past. The company that gives the best entertainment is sure of the patronage and managers this season are striving hard to obtain the very best talent available for presentation at popular prices. The manager, who will this season direct the fortunes of your old friend, Pat White, and his "All New Gaiety Girls" has secured a company second to none on the road and he has equipped it at great expense with a beautiful scenic outfit and costumes that compare favorably with those of the big productions in the higher priced houses. The company is said to be stronger and better equipped than any traveling this season. It is composed of a number of excellent comedians, while the chorus is composed of twenty-five young and handsome maidens, all of whom can sing and dance well, a fact that adds greatly to the success of the entertainment. The vehicle which will present the company to advantage is a two-act comedy with several scenes and which will be found full of good comedy situations, witty hits on the fables of the day and are so constructed that every member of the company is given an opportunity to display his or her talent to exceptional advantage. The girls will be seen in charming musical numbers and dancing innovations which will be greatly enhanced by magnificent settings, gorgeous costumes and unique and brilliant effects.

The entire entertainment will be a Broadway production on a reduced scale and patrons of the Englewood Theatre will witness one of the best performances of burlesque and vaudeville ever given at popular prices.

Pat White is to be featured.

HELP OUR BOYS

All persons interested in the welfare of our boys are requested to be present next Monday evening, August 19th, at a meeting of the 73d Ward Citizens' League at Prospect Halls, 47th st. and Ashland Ave., at 8 o'clock. Among other matters of importance to be taken up will be the drive for the Salvation Army. The last big drive "over there" has shown the wonderful work this body of self-sacrificing men and women has been doing with no special financial assistance from us. If the morale of our army is to be kept up good, tasty, "different" food must be given them when they are most in need of it. "Coffee and doughnuts" at the moment of discouragement may turn the tide of an important battle and ultimately decide the winning of the war. A little thing, surely, but it is really the "little things" in life that count and make possible the big, heavy things. Come up and give your encouragement to the work whether you can lend your personal assistance or not. YOUR help and YOUR encouragement are needed.

IN MEMORIAM

These lines are in loving remembrance of Mrs. Rose Stuhlinger, who passed away at her home, 6615 South Bishop St., June 26, at 2 o'clock, after an illness of two months.

She was patient in her suffering, always thinking of others and fearing she would cause too much trouble. The many floral emblems bore testimony of the love and esteem in which she was held. Not only the older people, but the interest and love of the children was an indication of the gentleness and kindness of her life. Surely one who can be loved as she was by children has a great and noble heart. The services were conducted at her home by the Rev. C. C. Coss. She leaves a husband and two daughters, Pearl and Gertrude. Burial took place at Evergreen Cemetery, Monday afternoon, July 29th.
